

NORTH SAN MATEO COUNTY SANITATION DISTRICT

a subsidiary of the City of Daly City

333 – 90TH STREET, DALY CITY, CALIFORNIA 94015-1895

(650) 991-8127

REGULAR MEETING – BOARD OF DIRECTORS

Monday, September 25, 2017 - 6:45 PM
City Hall Council Chambers – 2nd Floor
333 – 90th Street, Daly City, CA 94015

AGENDA

Persons with disabilities who require auxiliary aids or services in attending or participating in this meeting should call the office of the City Clerk at 991-8078. *We will need **FIVE (5) WORKING DAYS BEFORE ANY FUTURE MEETINGS** to make any necessary accommodations.*

CALL TO ORDER:

ROLL CALL:

APPROVAL OF AGENDA:

CONSENT AGENDA

All items listed on the Consent Agenda are considered to be routine and may be approved by one roll call vote of the Board of Directors. There shall be no separate discussion of the matters on the Consent Agenda unless requested by a member of the Board. If discussion is required, that item will be removed from the Consent Agenda and will be considered separately at the end of the Agenda.

Minutes:

1. Regular Meeting of August 14, 2017

Action Items:

2. Sewer Service Charge Appeals - FY 2017/18

END OF CONSENT AGENDA

PUBLIC APPEARANCES/ORAL COMMUNICATIONS:

***“AVAILABILITY OF PUBLIC RECORDS.** All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the City Clerk’s Office, City Hall located at 333 90th Street, Daly City, CA during normal business hours, at the same time that the public records are distributed or made available to the legislative body.”*

NOTE: Speakers are limited to two minutes, unless modified by the Chair. The District cannot take action on any matter raised under this item.

NEW BUSINESS:

3. Notice of Completion for the 2016-17 MRP Trash Capture Program

Staff:

Sweetland/Yip

Recommended Action:

Adopt Resolution

4. Adoption of Final Initial Study/Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program for the Expanded Tertiary Recycled Water Project

Staff:

Sweetland

Recommended Action:

Adopt Resolution

REPORTS:

5. Board of Directors

6. Staff

A Update on Environmental Assessment of the Vista Grande Drainage Basin Improvement Project

Staff:

Sweetland

Recommended Action:

Information Only (Oral Report)

ADJOURNMENT:

REGULAR MEETING - BOARD OF DIRECTORS

MINUTES

August 14, 2017

The Board of Directors of the North San Mateo County Sanitation District convened in a Regular Meeting on August 14, 2017, in the City Council Chamber, City Hall, 333 - 90th Street, Daly City, California.

The meeting was called to order by Chairman Glenn Sylvester at 6:59 p.m.

ROLL CALL:

Present: Christensen, Manalo, Sylvester

Absent: Guingona, Buenaventura

Staff Present: General Manager Patricia Martel, District Counsel Rose Zimmerman, Director of Water and Wastewater Resources Patrick Sweetland, Chief of Operations Greg Krauss, Plant and Equipment Maintenance Manager Joshua Cosgrove and Gillian Chow as Recording Secretary.

APPROVAL OF AGENDA:

Motion was made, seconded (Christensen/Manalo) and unanimously approved.

CONSENT AGENDA:

1. **Minutes of Regular Meeting of July 24, 2017**

Motion was made, seconded (Christensen/Manalo) and unanimously carried to adopt the Consent Agenda.

NEW BUSINESS:

2. **Acceptance of Bids for Secondary Clarifier #2 Coating Project**

Director of Water and Wastewater Resources Patrick Sweetland recommended that the Board accept the bid proposal by Jeffco Painting and Coating Inc. of Vallejo, California in the amount of \$189,000 to apply an Endura-Flex 1988 Coating System to the walls of Secondary Clarifier #2. There are only two Northern California vendors, Redwood Painting and Jeffco, authorized to apply Endura-Flex System 1988. Jeffco submitted the lowest responsible bid in the amount of \$189,000; Redwood Painting submitted a bid in the amount of \$198,883. Sufficient funds are available in Sanitation Capital Program Budget 87-920-857, Secondary Clarifier Coating Project in the amount of \$84,000 accomplished along with a budget transfer authorization of \$124,000 from Sanitation District Fund Balance to accomplish the anticipated work scope to include a 10% project contingency.

Motion was made, seconded (Christensen/Manalo) and unanimously carried to adopt the Resolution No. 17-SD-09, "Acceptance of Bids for Secondary Clarifier #2 Coating Project".

REPORTS:

3. **Board of Directors**

None.

4. **Staff**

None.

ADJOURNMENT:

At 7:04 p.m., call of adjournment of Regular Meeting by Chairman Glenn Sylvester.

Agenda Report

**North San Mateo County Sanitation District***a subsidiary of the City of Daly City*

Meeting Date: September 25, 2017

Subject: SEWER SERVICE CHARGE APPEALS - FISCAL YEAR 2017-2018Recommended Action

Based on staff review, I recommend that the sewer service charge be revised and based on annual water consumption or average yearly consumption excluding the base period.

Westborough WaterRecommended Denial

STAFF RECOMMENDATION TO BOARD

DENY ADJUSTMENT - DOES NOT MEET UNIT REQUIREMENT.

North San Mateo County Sanitation District

a subsidiary of the City of Daly City

Meeting Date: September 25, 2017

Subject: Notice of Completion for the 2016-17 MRP Trash Capture Program

Recommended Action

Staff recommends that the Board accept the 2016-17 Trash Capture Program as complete and in compliance with the construction contract. The project was successfully completed on schedule and within the budget approved for the project.

Background

Daly City, along with most cities throughout the nation, must comply with the National Pollution Discharge Elimination Provision System (NPDES) mandates of the Federal Clean Water Act. The San Francisco Regional Water Quality Control Board (Water Board) administers NPDES mandates within the Bay Area.

To administer the provisions of the NPDES the Water Board has issued a Municipal Regional Permit (MRP). Provision C.10 of the MRP requires permittees to implement control measures to reduce trash loads from storm drain systems (storm drains). Permittees are required to reduce trash discharges by 70% from 2009 levels by July 1, 2017 with a reduction target of 100% required by July 1, 2022.

To satisfy provision C.10 of the MRP, staff developed a project to install approximately 350 new connector pipe screen (CPS) devices, certified for full trash capture, in existing catch basins to prevent trash from entering receiving waters. A full capture device is any single device or series of devices that traps all deleterious particles in storm water greater than 5 mm mesh screen. Prior to this project, Daly City already had 70 CPS devices from United Storm Water, Inc. installed in storm drain catch basins with satisfactory performance. After the trash capture devices are installed, Public Works staff will use its recently acquired Vac-Con truck to remove trash and debris that accumulates in the catch basins and off haul as solid waste.

On September 12, 2016, the Board approved the award of a construction contract for the 2016-17 MRP Trash Capture Program Project to United Storm Water, Inc.

Discussion

United Storm Water, Inc. of the City of Industry, California has completed the installation of the 341 CPS devices required by the construction contract documents for a total amount of \$175,342.20 with a balancing credit to the City of \$4,627.80. The \$4,627.80 difference (approximately 2.57%) from the original contract award is due to differences between estimated and actual bid item quantities installed.

Fiscal Impact

The contract was completed in the total amount of \$175,342.20 with funds available in the Fiscal year 2016-17 Sanitation Fund Project Account 87-920-811 (2016-17 MRP Trash Capture Program).

Summary/Conclusion

The contractor's work is now complete and acceptable for City maintenance. Staff recommends that the Board accept the completed improvements.

Staff is available to answer any questions of the Chair or Members of the Board of Directors.

Respectfully submitted,

Roland Yip
Senior Civil Engineer

Patrick Sweetland
Director of Water and Wastewater Resources

**North San Mateo County Sanitation District***a subsidiary of the City of Daly City***Meeting Date: September 25, 2017**

Subject: Adoption of Final Initial Study/Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program for the Expanded Tertiary Recycled Water Project

Recommended Action

Staff recommends that the Board of Directors, in conformance with the California Environmental Quality Act, adopt the Final Initial Study/Mitigated Negative Declaration (IS/MND) and the Mitigation Monitoring and Reporting Program (MMRP) for the Proposed Expanded Tertiary Recycled Water Project

Background

Board Resolution No. 15-D-07 on September 14, 2015 authorized a memorandum of understanding with the San Francisco Public Utilities Commission to provide a 30% design, planning and environmental review to expand existing tertiary treatment capacity to provide recycled water to potential customers in Daly City, Colma and South San Francisco. The scope of work associated with the memorandum of understanding included an environmental assessment undertaken by SMB Environmental Incorporated as a subconsultant to Principle Project Manager Carollo Engineers. A complete project report detailing the 30% design effort is expected to be provided at the end of September.

Discussion

The North San Mateo County Sanitation District is the local agency associated with a Proposed Project to add new tertiary treatment facilities, recycled water pipelines, pump stations and a storage facility to provide an additional 3.3 million gallons a day, peak demand, of tertiary recycled water to 22 potential end users south of the existing wastewater treatment plant. Potential end users identified include six schools, two public parks, Daly City Civic Center, and 13 cemeteries in Colma. The primary purpose of the proposed project is to reduce irrigation reliance on the Westside Groundwater Basin to preserve it as a potable drinking water supply by providing a local, sustainable drought proof water supply consisting of full public contact Title 22 tertiary recycled water. The thirty-day public review period was initiated on July 24, 2017 and included public access to the initial IS/MND on Daly City's web page along with copies available at the Westlake and Serramonte Libraries. Three comment letters were received by the August 22, 2017 deadline from The Native American Heritage Commission, the State Water Resources Control Board and the Town of Colma. The comment letters were helpful in clarifying responses in determining that the Proposed Project could result in a number of significant effects on the environment and identified mitigation measures that would reduce the significant effects to a less-than significant level. The Mitigation Monitoring and Reporting Plan (MMRP) developed for the Proposed Project identifies twenty-six measures in response to the comments received and have been made part of document in

conformance with CEQA. The final copy of the IS/MND, MMRP was completed September 15, 2017 and distributed among all commenting parties along with a copy provided to the Board of Directors at their City Hall offices.

Fiscal Impact

Scope of the environment assessment is a reimbursable expense from the San Francisco Public Utilities Commission. Actual filing of the document with the County of San Mateo totals \$2,266.25 (California Fish & Game Filing Fee of \$2,216.25 and San Mateo County Processing Fee of \$50) to be performed within five days of the Board's action. Sufficient funds are available in Sanitation Fund 87-380-370-4234.

Staff is available to answer any questions of the Chair or members of the Board of Directors.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Patrick Sweetland", with a stylized flourish at the end.

Patrick Sweetland
Director of Water and Wastewater Resources

Chapter 5 CEQA Findings and Determination:

On the basis of this Final IS/MND for the City of Daly City's Expanded Tertiary Recycled Water Project:

- ☐ I find that the Proposed Project WOULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ☒ I find that although the Proposed Project COULD have a significant effect on the environment, there will NOT be a significant effect in this case because revisions in the Project and/or mitigation measures have been made by or agreed to by the City. As a result, a MITIGATED NEGATIVE DECLARATION will be prepared.
- ☐ I find that the Proposed Project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- ☐ I find that the Proposed Project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- ☐ I find that although the Proposed Project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the Proposed Project, nothing further is required.

Project Description: (please use a separate page if necessary)

This project would address storm-related flooding that currently occurs in the Basin and proposes to provide other environmental benefits, including restoration and management of water levels within Lake Merced. It would consist of partial replacement of the existing Vista Grande Canal to incorporate a debris screening device, a treatment wetland, and diversion and outfall structures to route some stormwater (and authorized non-storm water) flows from the Vista Grande Canal to Lake Merced; replacement of the existing Vista Grande Tunnel to increase its peak capacity and extend its operating life; and replacement of the existing ocean outfall structure at Fort Funston. Operational components of the project would include management of water elevations in Lake Merced and a Lake Management Plan that would implement water quality BMPs.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS–PWR–PWRO–23152; PPPWGOGAPO
PPMPSAS1Z.YP0000]

Final Environmental Impact Statement for Vista Grande Drainage Basin Improvement Project, Golden Gate National Recreation Area, San Francisco and San Mateo Counties, California

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final Environmental Impact Statement (Final EIS) for the proposed Vista Grande Drainage Basin Project (Project), prepared in cooperation with the City of Daly City (Daly City). The Final EIS incorporates the Final Environmental Impact Report (EIR) prepared by Daly City. Daly City is seeking a Special Use Permit from the NPS for construction activities proposed at Fort Funston, a possible Right of Way approval for outfall-related infrastructure on the beach below Fort Funston, and modernization of an existing easement to clarify the rights and obligations of the parties with regard to proposed structures within Fort Funston.

DATES: The NPS will execute a Record of Decision no sooner than 30 days after the date of publication by the Environmental Protection Agency (EPA) of the notice of filing and availability of the Final EIS in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Please contact Steve Ortega at the Golden Gate National Recreation Area (GGNRA) Planning Division at (415) 561–4930 or goga_planning@nps.gov.

ADDRESSES: An electronic copy of the Final EIS is available on the project Web site (<http://parkplanning.nps.gov/Vista-Grande>). A limited number of printed copies of the Final EIS are available for public inspection, and may be requested by contacting the GGNRA Planning Division as noted above.

SUPPLEMENTARY INFORMATION: The purpose and need for the Project is to alleviate flooding in the Vista Grande Drainage Basin and Canal and provide a sustainable source of water for management of Lake Merced water levels and quality, and to ensure that the portion of the Project within federally managed lands, if authorized, is constructed, operated, and maintained in a manner that is consistent with the protection and enhancement of resources, values, and uses of lands and waters under federal jurisdiction. NPS's objectives for the Project include the following: (1) Avoid, minimize, or mitigate environmental impacts to Park natural and cultural resources; (2) during construction, ensure the health and safety of park visitors and staff, maintain access to and through Fort Funston, and minimize impacts to the visitor experience; (3) permanently improve public access along the beach; and (4) minimize impacts on park assets and sustain or restore all park assets (e.g., facilities, features, grounds) to pre-construction or better conditions.

Range of Alternatives: The Project would address storm-related flooding in the Vista Grande Drainage Basin, while providing the additional benefit of augmenting the level of Lake Merced. The project would also improve recreational access and reduce litter transfer and deposition along the beach below Fort Funston and maximize the use of existing rights-of-way, easements, and infrastructure to minimize construction-related costs, habitat disturbance, and disruption to recreational users. The Final EIS describes and analyzes the following four alternatives:

No Project/No Action Alternative would result in no construction of the physical components of the proposed Project, and none of the proposed operational changes to stormwater routing or Lake Merced water management would be made. The NPS would not grant the Special Use Permit or amend the existing easement, and no construction could occur within NPS-

managed lands. Annual Canal sediment removal activities would continue, as well as as-needed maintenance activities. Because Canal and Tunnel capacity would not be improved, occasional flooding of the Canal and associated flooding of John Muir Drive into Lake Merced and in local neighborhoods would continue. This alternative serves as the environmental baseline from which potential effects of the "action" alternatives were compared.

Proposed Project, identified as the NPS preferred alternative, would consist of the following: (1) Improvements within the Vista Grande Basin storm drain system upstream of the Vista Grande Canal; (2) Partial replacement of the existing Vista Grande Canal to incorporate a gross solid screening device, an approximately 2.6-acre constructed treatment wetland, and diversion and discharge structures to route some stormwater (and authorized non-stormwater) flows from the Vista Grande Canal to Lake Merced and to allow lake water to be used for summer treatment wetland maintenance; (3) Modification of the existing effluent gravity pipeline so that it may be used year round to convey treated effluent from the nearby North San Mateo County Sanitation District Wastewater Treatment Plant to the existing outlet and diffuser by gravity, and abandoning the force main pipeline; (4) Modification of the existing lake overflow structure to include an adjustable weir and siphon that allows water from the lake to flow into the Canal and Tunnel; (5) Replacement of the existing Vista Grande Tunnel to expand its hydraulic capacity and extend its operating lifetime and replacement of the Lake Merced Portal to the Tunnel; and (6) Replacement of the existing Ocean Outlet structure and a portion of the existing 33-inch submarine outfall pipeline that crosses the beach at Fort Funston.

Tunnel Alignment Alternative would include the construction of a replacement tunnel south of the existing Tunnel. The new tunnel would run from a new east portal at the Canal to a new or rehabilitated Ocean Outlet structure at Fort Funston. The Tunnel would run beneath the Olympic Club, Highway 35, and the GGNRA lands. This alternative could be paired with either the proposed Canal improvements or the Canal Configuration Alternative.

Canal Configuration Alternative would not construct the box culvert replacing the first 1,500 feet of the Canal; rather, the diversion structure described for the proposed Project

would be relocated to the southern (upstream) end of the Canal. The box culvert under John Muir Drive also would be relocated and would cross under John Muir Drive close to the southern end of Impound Lake. The design of the diversion structure, box culvert under John Muir Drive, and Lake Merced Outlet would be approximately the same as for the proposed Project, but located at the upstream (southern) end of the Canal. The diversion structure would replace the first approximately 350 feet of the Canal, and the rest of the Canal would be unchanged except as needed for temporary construction access to the Lake Merced Tunnel Portal. Under the Canal Configuration Alternative, only one wetland cell of approximately 1.7 acres would be constructed. This alternative could be paired with either the proposed Tunnel improvements or the Tunnel Alignment Alternative.

The EPA notice of filing and availability of the Draft EIS was published on April 29, 2016, which opened the 60 day public review and comment period. The draft document was posted online at http://parkplanning.nps.gov/Vista_Grande, and printed copies were available on request. Daly City conducted one public meeting in Daly City on May 26, 2016. Following a review of agency and public comments on the Draft EIS, the NPS and Daly City prepared written responses to substantive comments relevant to the National Environmental Policy Act (NEPA) and California Environmental Quality Act (CEQA) review of the Project. Responses to comments are provided in Chapter 3 of the Final EIS. Staff-initiated revisions to the text of the Draft EIS as well as revisions made in response to pertinent comments are provided in Chapter 4 of the Final EIS.

The NPS will execute a Record of Decision no sooner than 30 days following EPA's notice published in the **Federal Register** announcing filing and release of the Final EIS. The official responsible for approval of the Vista Grande Drainage Basin Improvement Project is the Regional Director of the Pacific West Region, and subsequently the General Superintendent, GGNRA, will be responsible for NPS implementation.

Authority: 42 U.S.C. 4321 *et seq.*

Dated: July 25, 2017.

Martha J. Lee,

Acting Regional Director, Pacific West Region.

BILLING CODE 4312-52-P

INTERNATIONAL TRADE COMMISSION

Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has received a complaint entitled *Certain Thermoplastic-Encapsulated Electric Motors, Components Thereof, and Products and Vehicles Containing Same, DN 3248*; the Commission is soliciting comments on any public interest issues raised by the complaint or complainant's filing pursuant to the Commission's Rules of Practice and Procedure.

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000. The public version of the complaint can be accessed on the Commission's Electronic Document Information System (EDIS) at <https://edis.usitc.gov>, and will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000.

General information concerning the Commission may also be obtained by accessing its Internet server at United States International Trade Commission (USITC) at <https://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's Electronic Document Information System (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission has received a complaint and a submission pursuant to § 210.8(b) of the Commission's Rules of Practice and Procedure filed on behalf of Intellectual Ventures II LLC on September 5, 2017. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain thermoplastic-encapsulated electric motors, components thereof, and products and vehicles containing same. The

complaint names as respondents Aisin Seiki Co., Ltd. of Japan; Aisin Holdings of America, Inc. of Seymour, IN; Aisin Technical Center of America, Inc. of Northville, MI; Aisin World Corporation of America of Northville, MI; Bayerische Motoren Werke AG of Germany; BMW of North America, LLC of Woodcliff Lake, NJ; BMW Manufacturing Co., LLC of Greer, SC; Denso Corporation of Japan; Denso International America, Inc. of Southfield, MI; Honda Motor Co., Ltd. of Japan; Honda North America, Inc. of Torrance, CA; American Honda Motor Co., Inc. of Torrance, CA; Honda of America Mfg., Inc. of Marysville, OH; Honda Manufacturing of Alabama, LLC of Lincoln, AL; Honda R & D Americas, Inc. of Torrance, CA; Mitsubishi Corporation of Japan; American Mitsubishi Corporation of Mount Pleasant, MI; Nidec Corporation of Japan; Nidec Automotive Motor Americas, LLC of Auburn Hills, MI; Toyota Motor Corporation of Japan; Toyota Motor North America, Inc. of New York, NY; Toyota Motor Sales, U.S.A., Inc. of Torrance, CA; Toyota Motor Engineering & Manufacturing North America, Inc. of Erlanger, KY; Toyota Motor Manufacturing, Indiana, Inc. of Princeton, IN, and Toyota Motor Manufacturing, Kentucky, Inc. of Georgetown, KY. The complainant requests that the Commission issue a limited exclusion order, cease and desist orders, and impose a bond upon respondents' alleged infringing articles during the 60-day Presidential review period pursuant to 19 U.S.C. 1337(j).

Proposed respondents, other interested parties, and members of the public are invited to file comments, not to exceed five (5) pages in length, inclusive of attachments, on any public interest issues raised by the complaint or § 210.8(b) filing. Comments should address whether issuance of the relief specifically requested by the complainant in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the requested remedial orders are used in the United States;
- (ii) identify any public health, safety, or welfare concerns in the United States relating to the requested remedial orders;
- (iii) identify like or directly competitive articles that complainant,
