| Title:         | LOP STAFF COMMENTS ON UNSOLICITED 5/6/13 LETTERS PROPOSING REVISIONS TO THE 7/9/12 REVISED WORKPLAN CONDITIONALLY APPROVED IN THE 12/17/12 LOP LETTER AND AN EXTENSION OF THE PREVIOUSLY ESTABLISHED DEADLINES. LOP STAFF APPROVED SOME RECOMMENDATIONS, BUT NOT OTHERS, AND THE REVISION RESULTED IN SOME ADDITIONAL WORK REQUIRED BY LOP STAFF. LOP ONLY AGREED TO EXTEND THE ASSESSMENT COMPLETION DEADLINE TO 8/30/13 AND THE CAP COMPLETION DEADLINE TO 9/30/13.                                                                                                                                                                                                                                                                                                                                                           |           |                  |                |                         |    |

| Title:         | LOP STAFF COMMENTS ON 5/15/12 AND 11/14/12 MONITORING REPORTS, 6/26/12 QA/QC LETTER, 7/9/12 REVISED WORKPLAN, 7/26/12 REVISED PILOT TESTING REPORT, AND 11/19/12 EXTENSION REQUEST. LOP STAFF INDICATED SOME OF THE WORK REPORTED WAS NOT THE STANDARD OF CARE EXPECTED (REQUIRED FUTURE FIGURES AND TABLES TO BE ACCURATE AND REASONABLE). LOP STAFF INSTRUCTED RP TO UPLOAD VARIOUS GEOTRACKER FILES, REPAIR THE WELL BOXES OF U-10 AND U-11, AND VERIFY THE NAPL DRUM IS GROUNDED. LOP DIRECTED RP TO SUBMIT A LETTER FROM THE LABORATORY INDICATING THE 2011 ASSESSMENT RESULTS ARE ACCURATE (PREVIOUS LETTER WAS NOT SUFFICIENT). LOP STAFF CONDITIONALLY APPROVED REVISED WORKPLAN, EXTENDED CAP SUBMITTAL DEADLINE TO 6/15/13, AND REQUIRED CAP TO CONTAIN A RAP IF A COST-EFFECTIVE TECHNOLOGY IS JUSTIFIED IN THE CAP. |           |                  |                |                         |    |

| Title:         | LOP STAFF COMMENTS ON 11/15/11 ASSESSMENT AND GROUNDWATER MONITORING REPORT AND 11/15/11 SVE AND TPE PILOT TESTING REPORT. GPP STAFF DID NOT CONCUR WITH MANY FIGURES IN THE ASSESSMENT REPORT AND CONSIDERED THE WORKPLAN INADEQUATE. LOP DIRECTED RP TO UPLOAD A REVISED WORKPLAN FOR SITE ASSESSMENT AND A LETTER FROM THE LABORATORY DETAILING WHY THE QA/QC PROBLEMS FROM THE ANALYSIS OF THE SITE ASSESSMENT SAMPLES ARE NOT A PROBLEM. LOP ALSO DIRECTED RP TO VERIFY VAPOR CONCENTRATIONS LISTED ON TABLE 3 OF THE PILOT TESTING REPORT AND, IF INCORRECT, TO UPLOAD CORRECTED TABLES, FIGURES, AND TEXT THE INCORRECT CONCENTRATIONS WERE BASED ON. LOP DIRECTED RP TO UPLOAD A REMEDIAL SCREENING ANALYSIS ONLY IF THE REGISTERED PROFESSIONAL CAN JUSTIFY TESTING A NON-SVE/TPE REMEDIAL OPTION, OTHERWISE A CORRECTIVE ACTION PLAN IS NECESSARY. DIRECTED RP TO ADD SVE AND OBS WELLS TO GROUNDWATER GAUGING PROGRAM AND POTENTIALLY TO GROUNDWATER SAMPLING PROGRAM. LOP INDICATED SOME GEOTRACKER FILES WERE MISSING (PILOT TEST EDFs) OR REQUIRE CORRECTION (2Q11 NAPL GEOWELL, 3Q11 NAPL GEOWELL, EDF #6511) |           |                  |                |                         |    |

| <b>Title:</b>         | LOP COMMENTS ON UNSOLICITED 3/20/08 ADDENDUM TO PREVIOUSLY APPROVED WORKPLAN DATED 1/19/07. LOP DID NOT CONSIDER PROPOSED MODIFICATIONS JUSTIFIED AND INDICATED THEY COULD NOT SUPPORT FOR CLEANUP FUND REIMBURSEMENT UNLESS MODIFICATIONS CAN BE JUSTIFIED IN THE REPORT AS SATISFYING THE OBJECTIVES OF THE PREVIOUSLY APPROVED WORKPLAN. ALSO INDICATED NOV WILL BE ISSUED IF PROPOSED MODIFICATIONS DO NOT SATISFY OBJECTIVE OF PREVIOUSLY APPROVED WORK. LOP AGREED TO EXTEND THE REPORTING DEADLINE FOR THE PROPOSED DRY SEASON SUBSURFACE VAPOR SAMPLING, BUT NOT FOR THE WET SEASON VAPOR SAMPLING OR THE SOIL & GROUNDWATER SAMPLING TASKS. LOP INDICATED FUTURE PROPOSED CHANGES IN APPROVED WORK MUST BE SUBMITTED PROMPTLY AFTER WORKPLAN APPROVAL, NOT NEAR THE WORK COMPLETION DEADLINE ESTABLISHED IN THE WORKPLAN APPROVAL LETTER. |           |                  |                      |                              |    |

**Cleanup Sites from GeoTracker Cleanup Sites Data Download - Facilities Detail**

RB Case No: 41S0203 CUF Case: NO  
 Local Case No: Case Worker:  
 Begin Date: 4/16/1999 File Location: Local Agency  
 Stop Method:  
 Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)  
 Local Agency:  
 Potential COC: Tetrachloroethylene (PCE), Trichloroethylene (TCE)  
 Potential Media of Concern: Aquifer used for drinking water supply, Other Groundwater (uses other than drinking water), Soil Vapor  
 How Discovered:  
 How Discovered Description:  
 Stop Description:  
 Calwater Watershed Name: San Mateo - San Francisco Coastal (202.10)  
 DWR GW Subbasin Name: Westside (2-035)  
 Disadvantaged Community:  
 Site History:

The Site subsurface has been the subject of significant investigation and remediation activities beginning in 1999 under the jurisdiction of San Mateo County Environmental Health, Groundwater Protection Program (GPP). The assessment and remediation work has addressed residual petroleum hydrocarbons and chlorinated solvents associated with historic Site operations. Low Threat Closure Assessment completed in 2018, impediments to closure included more delineation of COCs in soil vapor is needed. A workplan was submitted and approved for additional remedial actions to reduce PCE concentrations in soil vapor. Soil vapor extraction was restarted at the site on May 28, 2019 after receiving a new permit from BAAQMD. A completion report for additional remedial actions is required for submittal by May 21, 2020.

**Site History:**

The Site subsurface has been the subject of significant investigation and remediation activities beginning in 1999 under the jurisdiction of San Mateo County Environmental Health, Groundwater Protection Program (GPP). The assessment and remediation work has addressed residual petroleum hydrocarbons and chlorinated solvents associated with historic Site operations. Low Threat Closure Assessment completed in 2018, impediments to closure included more delineation of COCs in soil vapor is needed. A workplan was submitted and approved for additional remedial actions to reduce PCE concentrations in soil vapor. Soil vapor extraction was restarted at the site on May 28, 2019 after receiving a new permit from BAAQMD. A completion report for additional remedial actions is required for submittal by May 21, 2020.

**Site History:**

Extracted from LFR's January 22, 2010 ADDITIONAL SUBSURFACE INVESTIGATION REPORT, San Mateo County does not take responsibility for the accuracy of the statements made or any professional interpretations made in the referenced report. The Site is an approximately 7,000 square foot parcel located at 88 Dixon Court (formerly 10 Dixon Court) in a mixed commercial, light industrial and residential area of Daly City, California. The Site is occupied by an approximately 3,500 square foot two-story office/commercial building, and a second building approximately 2,600 square feet in size, both built in 1947. The Site is bounded on the north and east by residences, on the west by a surface drainage/storm water channel, and on the south by Dixon Court. The Site elevation is approximately 205 feet above mean sea level (msl). Situated west of the Site are a Bay Area Rapid Transit (BART) retaining wall, Interstate 280, and Junipero Serra Boulevard. According to as-built drawings obtained from Caltrans, the elevation at the bottom of the I-280 retaining wall section west of the Site is in the range of 172.1 to 175.4 feet above msl. Although the elevation of the Caltrans retaining wall may have changed, the elevation range is expected to be similar. According to as-built drawings obtained from BART, the bottom of the BART retaining wall section west of and adjacent to the Site is at approximately elevation 155 feet above msl. The main building at the Site has been used as an administrative office for the past ten years, and the property has had numerous owners and tenants since the building was constructed. Historical Site uses have included dry-cleaning, printing operations, and auto body repair. Past Site operations have used various chemicals, including solvents and petroleum hydrocarbons. Beginning in 1999, numerous subsurface investigations have been conducted at the Site. Figure 2 shows the locations of soil vapor probes, soil borings, and monitoring wells. Tables 1 through 4 include historical soil and groundwater data collected at the Site. The investigations conducted at the Site from 1999 to 2003 are summarized in the April 5, 2005 Summary Report, Additional Investigation prepared by SLR International Corporation (SLR). Other investigation and remedial activities at the Site include the following: • In July 2004, SLR conducted field activities including Cone Penetration Test/Membrane Interface Probe (CPT/MIP) soil boring advancement, depthdiscrete groundwater sampling, and the construction of soil vapor probes. Soil vapor sampling occurred in August 2004. • In November and December 2004, SLR installed two deep soil borings (SB-1 and SB-2) and four shallow groundwater monitoring wells (MW-1 through MW-4). Since First Quarter 2005, groundwater monitoring has been conducted at the Site on a quarterly basis. • In November 2005, LFR installed two monitoring wells and three soil vapor probes and collected soil vapor samples from the newly installed probes. On November 28 through December 3, 2005, LFR performed a five-day Dual Phase Extraction (DPE) Pilot Test. In February 2006, LFR collect additional soil vapor samples from the soil vapor probes. The activities conducted were presented in the Interim Remedial Measure (IRM) Summary Report dated June 19, 2006 and revised November 1, 2006, which included a Human Health Risk Assessment (HHRA). • A DPE system was installed and started up in September 2007. The DPE system was temporarily shut down on April 28, 2008 pending approval from the SMCHSA to further operate the system. During the two quarters of system operation, 1,441 pounds of total petroleum hydrocarbons (TPH) and 29 pounds of volatile organic compounds (VOCs) were removed from the subsurface, which is considered a significant amount of TPH and VOC mass removed given the short period of system operation. As requested by the SMCHSA in their February 28, 2008 letter, a Site Characterization Work Plan

was submitted on April 11, 2008, which recommended modeling for addressing the groundwater pathway. However, the SMCHSA requested the collection of field samples in their letter dated April 8, 2009. LFR subsequently prepared Site Investigation Work Plan dated July 6, 2009. The Work Plan describes our proposed approach and work scope for further subsurface investigation at the Site, and proposes to reduce the groundwater monitoring frequency to a semi-annual basis. LFR submitted an Addendum with a revised scope of the proposed investigation in an electronic mail dated October 1, 2009. The semi-annual monitoring frequency (first and third quarters) and the Work Plan and Addendum were subsequently approved by the SMCHSA. The SMCHSA requested for a report of findings for the investigation in their September 11, 2009 letter.

Extracted from LFR's January 22, 2010 ADDITIONAL SUBSURFACE INVESTIGATION REPORT, San Mateo County does not take responsibility for the accuracy of the statements made or any professional interpretations made in the referenced report.

The Site is an approximately 7,000 square foot parcel located at 88 Dixon Court (formerly 10 Dixon Court) in a mixed commercial, light industrial and residential area of Daly City, California. The Site is occupied by an approximately 3,500 square foot two-story office/commercial building, and a second building approximately 2,600 square feet in size, both built in 1947. The Site is bounded on the north and east by residences, on the west by a surface drainage/storm water channel, and on the south by Dixon Court.

The Site elevation is approximately 205 feet above mean sea level (msl). Situated west of the Site are a Bay Area Rapid Transit (BART) retaining wall, Interstate 280, and Junipero Serra Boulevard. According to as-built drawings obtained from Caltrans, the elevation at the bottom of the I-280 retaining wall section west of the Site is in the range of 172.1 to 175.4 feet above msl. Although the elevation of the Caltrans retaining wall may have changed, the elevation range is expected to be similar.

According to as-built drawings obtained from BART, the bottom of the BART retaining wall section west of and adjacent to the Site is at approximately elevation 155

feet above msl. The main building at the Site has been used as an administrative office for the past ten years, and the property has had numerous owners and tenants since the building was constructed. Historical Site uses have included dry-cleaning, printing operations, and auto body repair. Past Site operations have used various chemicals, including solvents and petroleum hydrocarbons.

Beginning in 1999, numerous subsurface investigations have been conducted at the Site. Figure 2 shows the locations of soil vapor probes, soil borings, and monitoring wells. Tables 1 through 4 include historical soil and groundwater data collected at the Site. The investigations conducted at the Site from 1999 to 2003 are summarized in the April 5, 2005 Summary Report, Additional Investigation prepared by SLR International Corporation (SLR). Other investigation and remedial activities at the Site include the following:

- In July 2004, SLR conducted field activities including Cone Penetration Test/Membrane Interface Probe (CPT/MIP) soil boring advancement, depthdiscrete groundwater sampling, and the construction of soil vapor probes. Soil vapor sampling occurred in August 2004.
- In November and December 2004, SLR installed two deep soil borings (SB-1 and SB-2) and four shallow groundwater monitoring wells (MW-1 through MW-4). Since First Quarter 2005, groundwater monitoring has been conducted at the Site on a quarterly basis.
- In November 2005, LFR installed two monitoring wells and three soil vapor probes and collected soil vapor samples from the newly installed probes. On November 28 through December 3, 2005, LFR performed a five-day Dual Phase Extraction (DPE) Pilot Test. In February 2006, LFR collect additional soil vapor samples from the soil vapor probes. The activities conducted were presented in the Interim Remedial Measure (IRM) Summary Report dated June 19, 2006 and revised November 1, 2006, which included a Human Health Risk Assessment (HHRA).
- A DPE system was installed and started up in September 2007. The DPE system was temporarily shut down on April 28, 2008 pending approval from the SMCHSA to further operate the system. During the two quarters of system operation, 1,441 pounds of total petroleum hydrocarbons (TPH) and 29 pounds of volatile organic compounds (VOCs) were removed from the subsurface, which is considered a significant amount of TPH and VOC mass removed given the short period of system operation.

| Map Key | Number of Records | Direction | Distance (mi/ft) | Elev/Diff (ft) | Site | DB |

|---------|-------------------|-----------|------------------|----------------|------|----|

As requested by the SMCHSA in their February 28, 2008 letter, a Site Characterization Work Plan was submitted on April 11, 2008, which recommended modeling for addressing the groundwater pathway. However, the SMCHSA requested the collection of field samples in their letter dated April 8, 2009. LFR subsequently prepared Site Investigation Work Plan dated July 6, 2009. The Work Plan describes our proposed approach and work scope for further subsurface investigation at the Site, and proposes to reduce the groundwater monitoring frequency to a semi-annual basis. LFR submitted an Addendum with a revised scope of the proposed investigation in an electronic mail dated October 1, 2009. The semi-annual monitoring frequency (first and third quarters) and the Work Plan and Addendum were subsequently approved by the SMCHSA. The SMCHSA requested for a report of findings for the investigation in their September 11, 2009 letter.

#### LUST Sites from GeoTracker Search - Cleanup Status History (as of Feb 24, 2020)

**Status:** Completed - Case Closed  
**Date :** 2/25/2011

**Status:** Open - Remediation  
**Date :** 9/24/2007

**Status:** Open - Site Assessment  
**Date :** 6/28/2002

**Status:** Open - Site Assessment  
**Date :** 10/7/1999

**Status:** Open - Case Begin Date  
**Date :** 4/30/1999

#### LUST Sites from GeoTracker Search - Cleanup Action Report (as of Feb 24, 2020)

**Action Type:** IN SITU PHYSICAL/CHEMICAL TREATMENT (OTHER THAN SVE)  
**Phase:** Other (See Description), Water  
**Contaminant Mass Removed:** 1,441 Pounds  
**Description:** TPHg, 29 pounds solvents via Soil Vapor Extraction. 0.45 pounds TPHg, 0 pounds solvents via Groundwater Extraction. Source of data - LFR's status report dated 7-31-08.

**Action Type:** EXCAVATION  
**Phase:** Soil  
**Contaminant Mass Removed:** 200 \* Cubic Yards  
**Description:** Quantity of soil excavated during removal of USTs T-3 through T-6.

**Action Type:** EXCAVATION  
**Phase:** Soil  
**Contaminant Mass Removed:** 90 \* Cubic Yards  
**Description:** Excavated during removal of USTs T-1 and T-2.

#### LUST Sites from GeoTracker Search - Regulatory Activities (as of Feb 24, 2020)

**Action Type:** Other Regulatory Actions  
**Action Date:** 12/16/2011  
**Received Issue Date:** 12/16/2011  
**Action:** Clean Up Fund - Case Closure Review Summary Report (RSR)  
**Doc Link:** [https://geotracker.waterboards.ca.gov/view\\_documents?global\\_id=T0608119056&enforcement\\_id=6393497&temptable=ENFORCEMENT](https://geotracker.waterboards.ca.gov/view_documents?global_id=T0608119056&enforcement_id=6393497&temptable=ENFORCEMENT)

#### **Title Description Comments:**

1st 5- year Review

**Action Type:** Other Regulatory Actions  
**Action Date:** 2/14/2011  
**Received Issue Date:** 2/14/2011  
**Action:** Closure/No Further Action Letter - #20110214  
**Doc Link:** [https://geotracker.waterboards.ca.gov/view\\_documents?global\\_id=T0608119056&enforcement\\_id=6078903&temptable=ENFORCEMENT](https://geotracker.waterboards.ca.gov/view_documents?global_id=T0608119056&enforcement_id=6078903&temptable=ENFORCEMENT)

## Appendix: Database Descriptions

*Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:*

*"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."*

### Standard Environmental Record Sources

#### Federal

##### Facility Response Plan:

FRP

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

**Government Publication Date:** Mar 26, 2020

##### National Priority List:

NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

**Government Publication Date:** Jun 26, 2020

##### National Priority List - Proposed:

PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

**Government Publication Date:** Jun 26, 2020

##### Deleted NPL:

DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

**Government Publication Date:** Jun 26, 2020

##### SEMS List 8R Active Site Inventory:

SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

**Government Publication Date:** May 22, 2020

##### Inventory of Open Dumps, June 1985:

ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

**Government Publication Date:** Jun 1985

**SEMS List 8R Archive Sites:**[SEMS ARCHIVE](#)

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

**Government Publication Date:** May 22, 2020

**Comprehensive Environmental Response, Compensation and Liability Information System -**[CERCLIS](#)**CERCLIS:**

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

**Government Publication Date:** Oct 25, 2013

**EPA Report on the Status of Open Dumps on Indian Lands:**[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

**Government Publication Date:** Dec 31, 1998

**CERCLIS - No Further Remedial Action Planned:**[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

**Government Publication Date:** Oct 25, 2013

**CERCLIS Liens:**[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date:** Jan 30, 2014

**RCRA CORRACTS-Corrective Action:**[RCRA CORRACTS](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

**Government Publication Date:** Jul 27, 2020

**RCRA non-CORRACTS TSD Facilities:**[RCRA TSD](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

**Government Publication Date:** Jul 27, 2020

**RCRA Generator List:**[RCRA LQG](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

**Government Publication Date:** Jul 27, 2020

**RCRA Small Quantity Generators List:**

RCRA SQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

**Government Publication Date: Jul 27, 2020**

**RCRA Conditionally Exempt and Very Small Quantity Generators List:**

RCRA CESQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Conditionally Exempt and Very Small Quantity Generators (VSQG and CESQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG and CESQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

**Government Publication Date: Jul 27, 2020**

**RCRA Non-Generators:**

RCRA NON GEN

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

**Government Publication Date: Jul 27, 2020**

**Federal Engineering Controls-ECs:**

FED ENG

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date: Feb 26, 2020**

**Federal Institutional Controls- ICs:**

FED INST

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

**Government Publication Date: Feb 26, 2020**

**Emergency Response Notification System:**

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1982-1986**

**Emergency Response Notification System:**

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1987-1989**

**Emergency Response Notification System:**

ERNS

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories. This database is made available by the United States Environmental Protection Agency (EPA).

**The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:**

[FED BROWNFIELDS](#)

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date:** Sep 3, 2019

**FEMA Underground Storage Tank Listing:**

[FEMA UST](#)

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

**Government Publication Date:** Dec 31, 2017

**Petroleum Refineries:**

[REFN](#)

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

**Government Publication Date:** Jul 10, 2020

**Petroleum Product and Crude Oil Rail Terminals:**

[BULK TERMINAL](#)

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

**Government Publication Date:** Apr 28, 2020

**LIEN on Property:**

[SEMS LIEN](#)

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

**Government Publication Date:** May 22, 2020

**Superfund Decision Documents:**

[SUPERFUND ROD](#)

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

**Government Publication Date:** Jun 26, 2020

**State**

**State Response Sites:**

[RESPONSE](#)

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

**Government Publication Date:** Jul 14, 2020

**EnviroStor Database:**

[ENVIROSTOR](#)

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

**Government Publication Date:** Jul 14, 2020

**Delisted State Response Sites:**

[DELISTED ENVS](#)

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

**Government Publication Date:** Jul 14, 2020

**Solid Waste Information System (SWIS):**

[SWF/LF](#)

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

**Government Publication Date:** May 1, 2020

**EnviroStor Hazardous Waste Facilities:**

HWP

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

**Government Publication Date:** Jul 14, 2020

**Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:**

SWAT

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

**Government Publication Date:** Dec 31, 1995

**Land Disposal Sites:**

LDS

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

**Government Publication Date:** Jul 15, 2020

**Leaking Underground Fuel Tank Reports:**

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

**Government Publication Date:** Jul 15, 2020

**Delisted Leaking Storage Tanks:**

DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

**Government Publication Date:** Jul 15, 2020

**Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:**

SWRCB SWF

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

**Government Publication Date:** Sep 20, 2006

**Permitted Underground Storage Tank (UST) in GeoTracker:**

UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

**Government Publication Date:** Jul 12, 2020

**Proposed Closure of Underground Storage Tank Cases:**

UST CLOSURE

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

**Government Publication Date:** Jul 7, 2020

**Historical Hazardous Substance Storage Information Database:**

HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

**Government Publication Date:** Aug 27, 2015

**Aboveground Storage Tanks:**

AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

**Government Publication Date:** Aug 31, 2009

**Oil and Gas Facility Tanks:**

TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

**Government Publication Date:** Jul 21, 2020

**Delisted Storage Tanks:**

DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

**Government Publication Date:** Aug 19, 2020

**California Environmental Reporting System (CERS) Tanks:**

CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

**Government Publication Date:** Aug 7, 2020

**Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:**

LUR

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

**Government Publication Date:** Jul 14, 2020

**Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:**

HLUR

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

**Government Publication Date:** Apr 8, 2020

**Deed Restrictions and Land Use Restrictions:**

DEED

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

**Government Publication Date:** Jul 15, 2020

**Voluntary Cleanup Program:**

VCP

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

**Government Publication Date:** Jul 14, 2020

**GeoTracker Cleanup Program Sites:**

CLEANUP SITES

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

**Government Publication Date:** Jul 15, 2020

**Delisted County Records:**

DELISTED COUNTY

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

**Government Publication Date:** Sep 16, 2020

**Delisted California Environmental Reporting System (CERS) Tanks:**[DELISTED CTNK](#)

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

**Government Publication Date:** Aug 7, 2020

**Historical Hazardous Substance Storage Container Information - Facility Summary:**[HIST TANK](#)

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

**Government Publication Date:** May 27, 1988

**Tribal****Leaking Underground Storage Tanks (LUSTs) on Indian Lands:**[INDIAN LUST](#)

LUSTs on Tribal/Indian Lands in Region 9, which includes California.

**Government Publication Date:** Apr 8, 2020

**Underground Storage Tanks (USTs) on Indian Lands:**[INDIAN UST](#)

USTs on Tribal/Indian Lands in Region 9, which includes California.

**Government Publication Date:** Apr 8, 2020

**Delisted Tribal Leaking Storage Tanks:**[DELISTED ILST](#)

Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.

**Government Publication Date:** Apr 14, 2020

**Delisted Tribal Underground Storage Tanks:**[DELISTED IUST](#)

Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.

**Government Publication Date:** Apr 14, 2020

**County****San Mateo County - LOP List:**[SANMATEO LOP](#)

A list of Leaking Underground Storage Tank (LUST) facilities in San Mateo County. This list is made available by San Mateo County Environmental Health Services Division.

**Government Publication Date:** Aug 27, 2019

**San Mateo County - CUPA Facilities List:**[SANMATEO CUPA](#)

A list of facilities associated with various Certified Unified Program Agency (CUPA) programs in San Mateo County. This list is made available by San Mateo County Environmental Health Department which has been designated as the CUPA for the County.

**Government Publication Date:** Feb 20, 2020

**Additional Environmental Record Sources****Federal****PFOA/PFOS Contaminated Sites:**[PFAS NPL](#)

List of sites where PFOA or PFOS contaminants have been found in drinking water or soil. Made available by the Federal Environmental Protection Agency (EPA).

**Government Publication Date:** Jul 7, 2020

**Facility Registry Service/Facility Index:**

FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

**Government Publication Date: Mar 25, 2020**

**Toxics Release Inventory (TRI) Program:**

TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

**Government Publication Date: Feb 19, 2020**

**Perfluorinated Alkyl Substances (PFAS) Releases:**

PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

**Government Publication Date: Feb 19, 2020**

**Perfluorinated Alkyl Substances (PFAS) Water Quality:**

PFAS WATER

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

**Government Publication Date: Jul 20, 2020**

**Hazardous Materials Information Reporting System:**

HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

**Government Publication Date: Jan 8, 2020**

**National Clandestine Drug Labs:**

NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

**Government Publication Date: Mar 19, 2020**

**Toxic Substances Control Act:**

TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

**Government Publication Date: Apr 11, 2019**

**Hist TSCA:**

HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

**Government Publication Date: Dec 31, 2006**

**FTTS Administrative Case Listing:**

FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

**Government Publication Date:** Jan 19, 2007

**FTTS Inspection Case Listing:**

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

**Government Publication Date:** Jan 19, 2007

**Potentially Responsible Parties List:**

[PRP](#)

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

**Government Publication Date:** Jul 29, 2020

**State Coalition for Remediation of Drycleaners Listing:**

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

**Government Publication Date:** Nov 08, 2017

**Integrated Compliance Information System (ICIS):**

[ICIS](#)

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

**Government Publication Date:** Nov 18, 2016

**Drycleaner Facilities:**

[FED DRYCLEANERS](#)

A list of drycleaner facilities from the Integrated Compliance Information System (ICIS). The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

**Government Publication Date:** Jan 20, 2020

**Delisted Drycleaner Facilities:**

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

**Government Publication Date:** Jan 20, 2020

**Formerly Used Defense Sites:**

[FUDS](#)

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

**Government Publication Date:** Jan 28, 2020

**PHMSA Pipeline Safety Flagged Incidents:**

[PIPELINE INCIDENT](#)

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

**Government Publication Date:** Jul 7, 2020

**Material Licensing Tracking System (MLTS):**

[MLTS](#)

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

**Government Publication Date:** Oct 31, 2019

**Historic Material Licensing Tracking System (MLTS) sites:**

[HIST MLTS](#)

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

**Government Publication Date:** Jan 31, 2010

**Mines Master Index File:**

**MINES**

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

**Government Publication Date:** May 1, 2020

**Alternative Fueling Stations:**

**ALT FUELS**

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

**Government Publication Date:** Jun 22, 2020

**Registered Pesticide Establishments:**

**SSTS**

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

**Government Publication Date:** Mar 31, 2020

**Polychlorinated Biphenyl (PCB) Notifiers:**

**PCB**

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

**Government Publication Date:** Oct 9, 2019

**State**

**Dry Cleaning Facilities:**

**DRYCLEANERS**

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

**Government Publication Date:** Aug 12, 2020

**Delisted Drycleaners:**

**DELISTED DRYCLEANERS**

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

**Government Publication Date:** Aug 12, 2020

**Non-Toxic Dry Cleaning Incentive Program:**

**DRYC GRANT**

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

**Government Publication Date:** Feb 28, 2018

**Per- and Polyfluoroalkyl Substances (PFAS):**

**PFAS**

List of sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

**Government Publication Date:** Jul 15, 2020

**PFOA/PFOS Groundwater:**

**PFAS GW**

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.Y

**Government Publication Date: Jul 28, 2020**

**Hazardous Waste and Substances Site List - Site Cleanup:**

**HWSS CLEANUP**

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

**Government Publication Date: Aug 19, 2020**

**List of Hazardous Waste Facilities Subject to Corrective Action:**

**DTSC HWF**

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

**Government Publication Date: Jul 18, 2016**

**EnviroStor Inspection, Compliance, and Enforcement:**

**INSP COMP ENF**

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

**Government Publication Date: Jul 20, 2020**

**School Property Evaluation Program Sites:**

**SCH**

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

**Government Publication Date: Jul 14, 2020**

**California Hazardous Material Incident Report System (CHMIRS):**

**CHMIRS**

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Jul 22, 2020**

**Hazardous Waste Manifest Data:**

**HAZNET**

A list of hazardous waste manifests received each year by Department of Toxic Substances Control (DTSC). The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Oct 24, 2016**

**Historical California Hazardous Material Incident Report System (CHMIRS):**

**HIST CHMIRS**

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Jan 1, 1993**

**Historical Hazardous Waste Manifest Data:**

**HIST MANIFEST**

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Dec 31, 1992**

**Historical Cortese List:**

**HIST CORTESE**

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

**Government Publication Date: Nov 13, 2008**

**Cease and Desist Orders and Cleanup and Abatement Orders:**

**CDO/CAO**

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

**Government Publication Date: Feb 16, 2012**

**California Environmental Reporting System (CERS) Hazardous Waste Sites:**

[CERS HAZ](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

**Government Publication Date: Aug 7, 2020**

**Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:**

[DELISTED HAZ](#)

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

**Government Publication Date: Nov 29, 2018**

**Sites in GeoTracker:**

[GEOTRACKER](#)

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

**Government Publication Date: Jul 15, 2020**

**Waste Discharge Requirements:**

[WASTE DISCHG](#)

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

**Government Publication Date: Jul 15, 2020**

**Toxic Pollutant Emissions Facilities:**

[EMISSIONS](#)

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

**Government Publication Date: Dec 31, 2018**

**Clandestine Drug Lab Sites:**

[CDL](#)

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

**Government Publication Date: Jun 30, 2018**

**Tribal**

**No Tribal additional environmental record sources available for this State.**

**County**

**No County additional environmental databases were selected to be included in the search.**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

RE: CITY DIRECTORY RESEARCH  
427321  
141 3rd Avenue Daly City, CA

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

**Search Criteria:**

All of 3rd Avenue

## Environmental Records Request

Asterisks (\*) indicate required fields

This form was succesfully submitted and saved

Section 6256 of the Public Records Act requires access to public records within 10 days the date of receipt. The Division will make every effort to provide access within 10 days with advance notification for an appointment to review records. This allows us time to retrieve files from off-site and review files. Should the request take longer than 10 days, the department will inform the requestor of additional time needed to perform the request.

A valid mailing address must be provided, as it may be used to mail a CD containing the requested files in the event that the total file size exceeds e-mail limits.

**Provide complete address (street number, street name and city) or Assessor's Parcel Number.**

**The requesting party will be notified as soon as files/documents are available.**

**Canceling a records request, contact Environmental Health at 650-372-6200.**

**Date of Request \* (required)**

09/16/2020

**Name of Person/Entity Requesting \* (required)**

Elizabeth Hoggatt

**Mailing Address \* (required)**

768 60th Street

**Suite/Apt (If none, please type N/A) \* (required)**

N/A

**Mailing City \* (required)**

Oakland

**Mailing State \* (required)**

California

**Mailing Zip \* (required)**

94609

**Phone Number \* (required)**

510-334-6625

**Email \* (required)**

ehoggatt@aeiconsultants.com

**Confirm Email\***

Record Request Location: Enter up to 9 address(es) and/or APN(s)

**Address****City****Zip****APN**

Daly City

94014

006-254-020

**Record Type \* (required)**

- ☐ Food Facility
- ☐ Housing
- ☐ Hazardous Waste
- ☐ Groundwater Protection
- ☐ Landuse
- ☐ Medical Waste
- ☐ Swimming Pools
- ☐ Solid Waste
- ☒ Other (if requesting more than one record type. List below in comments.)

**Comments:(Text limited to 300 characters)**

AEI has been contracted to perform a Phase I ESA. Please indicate if you have any current/archived records pertaining to aboveground storage tanks, underground storage tanks, hazardous materials storage/disposal, industrial waste discharges and/or spills/releases, inspection records, & landuse info

## OWNER-BUILDER DECLARATION

I hereby affirm under penalty of perjury that I am exempt from the Contractor's License Law for the following reasons: (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):

☐ I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale. (Section 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

☐ I, as owner of the property, am exclusively contracting with licensed contractors to construct the project. (Section 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who constructs for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.)

☐ I am exempt under Sec. \_\_\_\_\_, B.&P.C. for this reason \_\_\_\_\_

## WORKERS COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations.

☒ I have and will maintain a certificate of consent to self-insure for county which requires a permit to construct, alter, improve, workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☐ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are: Carrier State Fund Policy No. 1484492  
(Do not complete this section if the permit is for one hundred dollars (\$100) or less.)

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provision of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Date \_\_\_\_\_ Applicant \_\_\_\_\_

**WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.**

I declare under penalty of perjury that I have read this application and state that the information is true and correct. I agree to comply with all local ordinances and the State laws relating to Building Construction and I make this statement under penalty of law. I hereby authorize representatives of this City/County to enter on the above-mentioned property for inspection purposes.

**NOTICE: This permit becomes null and void if work is not commenced in 180 calendar days (60 days for enforcement permits, 60 days for maintenance permits) from date of issuance, or if work is suspended at any time for more than 180 calendar days or work is performed in violation of any City or State laws thereto.**

# HEALTH SERVICES AGENCY

December 4, 2003

Omar Guzman  
City of Daly City  
Building Department  
333 90<sup>th</sup> Street  
Daly City, CA 94015

**SUBJECT: CASE CLOSURE OF OTTOBANI NURSERY, 165 THIRD STREET, DALY CITY, CALIFORNIA**

Dear Mr. Guzman:

The enclosed case closure letter is a result of intensive review by San Mateo County Groundwater Protection Program (GPP) staff. San Mateo GPP staff has determined that the water quality objectives of the San Francisco Bay Regional Water Quality Control Board have been satisfied. However, an undetermined quantity of soil with residual pesticide concentrations remains at the site. Should any change in use of the property or development of the subject site occur which may impact these soils, city building departments must notify the Environmental Health Division for approval pursuant to Government Code Section 65850.2. County oversight costs for management of contaminated soil or groundwater will be billed directly to the current property owner.

Should you have questions, you may reach me at (650) 599-1641. Thank you for your cooperation.

Sincerely,

Patrick Ledesma  
Hazardous Materials Specialist  
Groundwater Protection Program

# HEALTH SERVICES AGENCY

December 4, 2003

Maria Alcalde  
City of Daly City  
333 90<sup>th</sup> Street  
Daly City, CA 94015

**SUBJECT: CASE CLOSURE OF OTTOBANI NURSERY, 165 THIRD STREET, DALY CITY, CALIFORNIA**

Dear Ms. Alcalde:

This letter confirms the completion of site investigation and remedial action for the surface contamination located at the above-described location. Enclosed is the Case Closure Summary for the referenced site for your records.

Based upon the available information, and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the soil and groundwater remediation at the subject site is required. However, an undetermined quantity of soil with residual pesticide concentrations remains at the site (see attached figure). Should any change in use of the property or development of the subject site occur which may impact site soil in this area, notification must be made to this office for approval. County oversight costs for management of contaminated soil or groundwater will be billed directly to the current property owner.

This notice is issued pursuant to regulations contained in the Title 23, California Code of Regulations. Please contact our office if you have any question regarding this matter.

Sincerely,

Dean Peterson, REHS, PE  
Director, Environmental Health

The City of Daly City Building Department was sent a letter with a caveat that should excavation or development of the property be proposed, the San Mateo County Environmental Health Division will be notified to ensure proper disposal or handling of contaminated soils. The volume of contaminated soil was not determined. Please refer to Figures 6 and 7 for details delineating the extent of remaining soil contamination. Should any change in use of the property or development of the subject site occur which may impact these soils, City Building Departments must notify the Environmental Health Division for approval pursuant to Government Code Section 65850.2.2.

Dean D. Peterson

# HEALTH DEPARTMENT

January 7, 2005

Mr. David Hamdi  
1165 Hillside Boulevard  
Colma, CA 94014-3061

Mr. Omar Alzgoul  
161 Tulare Drive  
San Bruno, CA 94066

SUBJECT: CASE CLOSURE OF SITE #220049, ONE (1) 350-GALLON WASTE OIL UST, TWO (2) 2,500-GALLON GASOLINE USTS, AND TWO (2) 5,000-GALLON GASOLINE USTS AT HAMDI PROPERTY, 1055 HILLSIDE BLVD., DALY CITY, CALIFORNIA

Dear Mssrs. Hamdi and Alzgoul:

This letter confirms the completion of site investigation and corrective action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on the information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, this agency finds that the site investigation and corrective action carried out at your underground storage tank(s) site is in compliance with the requirements of subdivision (a) and (b) of Section 25296.10 of the Health and Safety Code and with corrective action regulations adopted pursuant to Section 25299.3 of the Health and Safety Code and that no further action related to the petroleum release(s) at the site is required.

This notice is issued pursuant to subdivision (g) of Section 25296.10 of the Health and Safety Code.

Please contact our office if you have any questions regarding this matter.

Sincerely,

Dean D. Peterson, PE, REHS  
Director, Environmental Health

January 7, 2005

Bill Cameron  
Building Inspection Manager  
San Mateo County Planning and Building Division  
455 County Center, 2<sup>nd</sup> Floor  
Redwood City, CA 94063

SUBJECT: BUILDING DEPARTMENT NOTIFICATION FOR CASE CLOSURE OF SITE #220049, ONE (1) 350-GALLON WASTE OIL UST, TWO (2) 2,500-GALLON GASOLINE USTS, AND TWO (2) 5,000-GALLON GASOLINE USTS AT HAMDI PROPERTY, 1055 HILLSIDE BLVD., DALY CITY, CALIFORNIA

Dear Mr. Cameron:

The enclosed case closure letter is a result of intensive review by San Mateo County Groundwater Protection Program (GPP) staff with concurrence from the Regional Water Quality Control Board staff. San Mateo GPP staff has determined that the water quality objectives of the San Francisco Bay Regional Water Quality Control Board have been satisfied. However, an undetermined volume of contaminated soil and ground water remains at the site. Should any change in use of the property or development of the subject site occur which may impact these soils or groundwater, city and county building departments must notify the Environmental Health Division for approval pursuant to Government Code Section 65850.2. County oversight costs for management of contaminated soil or groundwater will be billed directly to the current property owner.

Should you have questions, you may reach me at (650) 599-1641. Thank you for your cooperation.

Sincerely,

Patrick Ledesma  
Hazardous Materials Specialist  
Groundwater Protection Program

**III. RELEASE AND SITE CHARACTERIZATION INFORMATION**

Cause and Type of Release: *Unknown*  
Site Characterization Complete: *12/23/03*  
Number of Monitoring Wells Installed: *6*  
Proper Screen Interval: *yes*  
Highest GW Depth BGS: *16.79 feet bgs*  
Flow Direction: *West*  
Most Sensitive GW Use: *Drinking water*  
Is Drinking Water Affected: *No*  
Off-site Beneficial Use Impacts (location): *None*  
Report(s) On File: *Yes* Where Filed: *SMCo*

**Treatment and Disposal of Affected Material**

| <i>Material</i> | <i>Amount (Include Units)</i> | <i>Treatment or Disposal</i> | <i>Date</i> |
|-----------------|-------------------------------|------------------------------|-------------|
| Soil            | None                          | --                           | --          |
| Groundwater     | None                          | --                           | --          |

**Maximum Documented Contaminant Concentrations — Before and After Cleanup**

| <i>Contaminant</i> | <b>SOIL<br/>(PPM)</b> |              | <b>GROUNDWATER<br/>(PPB)</b> |              |
|--------------------|-----------------------|--------------|------------------------------|--------------|

| MTBE               | <31                   | <0.62        | <500                         | <5.0         |

NA = Not analyzed

ND = Not detected above laboratory detection limits.

Maximum soil concentrations detected predominantly between 15 feet and 20 feet bgs.

**IV. CLOSURE**

|                                                                                                                  |
|------------------------------------------------------------------------------------------------------------------|
| Does completed corrective action protect existing beneficial uses per the Regional Board Basin Plan? <i>Yes</i>  |
| Does completed corrective action protect potential beneficial uses per the Regional Board Basin Plan? <i>Yes</i> |
| Does corrective action protect public health for current land use? <i>Yes</i>                                    |
| Site Management Requirements: <i>Building Department Notification</i>                                            |
| Should corrective action be reviewed if land use changes? <i>No</i>                                              |
| Monitoring wells to be decommissioned: <i>6</i> Number Decommissioned: <i>0</i><br>Number Retained: <i>0</i>     |

| <i>Date Submitted to RWQCB:</i> | <i>RWQCB Response:</i>              |
| <i>RWQCB Staff:</i> Nancy Katyl | <i>Title:</i> Engineering Geologist |

The City of Daly City Building Department was sent a letter with a caveat that should excavation or development of the property be proposed, the San Mateo County Environmental Health Division will be notified to ensure proper disposal or handling of contaminated soils. The volume of contaminated soil and groundwater was not determined. Should any change in use of the property or development of the subject site occur which may impact these soils or groundwater; City Building Departments must notify the Environmental Health Division for approval pursuant to Government Code Section 65850.2.2.

  
Dean D. Peterson  
Director, Environmental Health

- 1 Environmental Screening Levels (ESLs) for impacted surface soil less than 10 feet bgs (predominated by coarse-grained materials), where groundwater IS a current or potential drinking water resource (residential category).
- 2 Ecological ESLs are intended to represent a broad range of land-use scenarios, including residential, agricultural, and parkland and are considered adequate only for general screening purposes in and around urban areas (i.e., Urban Area Ecotoxicity Criteria).
- 3 Tested positively for ignitability. Flash point was 40° C.
- 4 ESLs for impacted subsurface soil greater than 10 feet bgs (predominated by coarse-grained materials), where groundwater IS a current or potential drinking water resource (residential category).
- 5 NA = Not Analyzed.
- 6 The benzene ESL was determined based on direct-exposure criteria for surface soil (maximum depth of 16 feet bgs).
- 7 NE = Not Established. Use chemical-specific soil gas screening ESLs for indoor air impacts.
- 8 ESL based on soil contamination leaching to groundwater.
- 9 ESL based on soil contamination volatilization to indoor air.
- 10 Below the respective detection limit for each halogenated volatile organic compound (HVOC).

Table 2: Comparison of Maximum Groundwater Concentrations at the Site to Guidance Cleanup Levels.

1 Maximum concentrations of petroleum hydrocarbons detected in groundwater sample collected from temporary borings.

2 Free product in sample, laboratory noted as "not diesel pattern."

3 Maximum concentrations detected in on-site groundwater monitoring wells during nine quarterly groundwater monitoring events conducted between January 4, 2000, and September 26, 2002.

4 Environmental Screening Levels (ESLs) for impacted groundwater at 10 feet bgs, where groundwater IS a current or potential drinking water resource. The final ESL reflects the lowest of the chemicals screening level for drinking water toxicity, aquatic habitat protection, indoor-air impacts, and a "ceiling level" for tastes & odors or other nuisance concerns.

5 ESLs, where groundwater IS a current or potential drinking water resource (residential category). ESLs are intended to represent a broad range of land-use scenarios, including residential, agricultural, and parkland and are considered adequate only for general screening purposes in and around urban areas (i.e., Urban Area Ecotoxicity Criteria).

6 NA = Not analyzed.

7 ESL for drinking water quality, based on 10-foot depth to groundwater (predominated by coarse-grained materials).

8 ESL for volatilization to indoor air, based on 10-foot depth to groundwater (predominated by coarse-grained materials). An indoor-air ESL has not been established for total petroleum hydrocarbons.

9 ESL ceiling level (taste and odor threshold) is based on 10-foot depth to groundwater (predominated by coarse-grained materials).

## **ASTM USER QUESTIONNAIRE**

## ASTM E 1527-05 User Questionnaire

In order to qualify for the protection offered under the EPA All Appropriate Inquiry (AAI) Standard, the **User** (entities seeking to use the ASTM E1527-05 Practice to complete an environmental site assessment of the property; i.e. Lenders and/or Borrowers) must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that AAI is not complete. This information should be the collective knowledge of the entities relying on the Phase I. **Please note that you are not being asked to evaluate the property, but rather to provide your knowledge of information on the property.**

Site Name/Address: 141 3rd Ave Daly City

Person Interviewed/Title: Nicole Gittleson Date: 09/29/2020

If known, when was the property initially developed? unknown

If different, when were the current building(s) on the property constructed? unknown

1. Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).

Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law? (**Note:** If unknown, a review of title records or an environmental lien search is recommended)

Yes ☐ No ☒ If you answer yes, please include an explanation in the space provided below:

---

---

---

2. Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

*Engineering Controls* are defined as physical modifications to a site or facility to reduce or eliminate the potential for exposure to hazardous substances or petroleum products in the soil or ground water on the property). *Institutional Controls* are defined as a legal or administrative restriction on the use of, or access to, a site or facility to 1) reduce or eliminate the potential for exposure to hazardous substances or petroleum products in the soil or ground water on the property, or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment.

Yes ☐ No ☒ If you answer yes, please include an explanation in the space provided below:

---

---

---

3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the *User* of this *ESA* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes ☐ No ☒ If you answer yes, please include an explanation in the space provided below:

---

---

---

---

4. Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29).

a) Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?

Yes ☒ No ☐ If you answer no, please include an explanation in the space provided below, including whether the lower purchase price is because contamination is known or believed to be present at the *property*?

---

---

---

---

5. Commonly known or *reasonably ascertainable* information about the *property* (40 CFR 312.30).

Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *User*:

a. Do you know the past uses of the *property*?

Yes ☐ No ☒

b. Do you know of specific chemicals that are present or once were present at the *property*?

Yes ☐ No ☒

c. Do you know of spills or other chemical releases that have taken place at the *property*?

Yes ☐ No ☒

d. Do you know of any environmental cleanups that have taken place at the *property*?

Yes ☐ No ☒

If you answered yes to any of the questions above, please include an explanation in the space provided below:

---

---

---

---

6. The degree of obviousness of the presence of likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the *User* of this *ESA*, based on your knowledge and experience related to the *property*, are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

Yes ☐ No ☒ If you answer yes, please include an explanation in the space provided below:

---

---

## OTHER ENVIRONMENTAL CONDITIONS

Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property? ☒ No ☐ Yes If yes, provide brief explanation.

Are you aware of any pending, threatened or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property? ☒ No ☐ Yes If yes, provide brief explanation.

Are you aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products? ☒ No ☐ Yes If yes, provide brief explanation.

## SIGNATURE INFORMATION

Person completing questionnaire: Winston Chow

Title/Affiliation to property: Managing Owner

Number of years associated with property: 9 years

Date: September 19, 2020

## SITE VISIT INFORMATION

- A person knowledgeable of current property use/business operations should be present during the site visit.
- Access to a percentage of units should be provided as requested by the field professional.
- Access to the following areas should be provided: all common areas, storage areas, and utility areas; all underground features and chemical storage/disposal areas.
- The following documentation should be provided for review if applicable: all hazardous waste manifests, environmental permits, and any previous environmental reports.

## DESCRIPTION

### QUATERNARY

Qs

Extensive marine and  
generally near the  
coastline

Q

Alluvium, lake, playa, and  
unconsolidated deposits

Qls

Selected large landslides

Qg

Glacial till and moraine  
in the Sierra Nevada

Qoa

Older alluvium, lake,  
and gravel deposits

QPc

Pleistocene and/or Pliocene  
gravel deposits

### QUATERNARY

Qrv

Recent (Holocene) volcanic  
deposits

Qrvf

Recent (Holocene) pyroclastic  
deposits

Qv

Quaternary volcanic  
deposits

Qvp

Quaternary pyroclastic  
deposits

### TERTIARY

Tc

Undivided Tertiary  
conglomerate, breccia,  
and sandstone

P

Pliocene marine sandstone  
conglomerate

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service  
Web Soil Survey URL:  
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: San Mateo County, Eastern Part, and San Francisco County, California  
Survey Area Data: Version 16, May 29, 2020

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 29, 2019—Jun 5, 2019

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

## San Mateo County, Eastern Part, and San Francisco County, California

### 135—Urban land-Orthents, smoothed complex, 5 to 50 percent slopes

#### Map Unit Setting

*National map unit symbol:* h9hk

*Elevation:* 100 to 500 feet

*Mean annual precipitation:* 25 to 35 inches

*Mean annual air temperature:* 54 to 57 degrees F

*Frost-free period:* 300 to 350 days

*Farmland classification:* Not prime farmland

#### Map Unit Composition

*Urban land:* 65 percent

*Orthents and similar soils:* 25 percent

*Minor components:* 10 percent

*Estimates are based on observations, descriptions, and transects of the mapunit.*

#### Description of Urban Land

##### Setting

*Landform:* Marine terraces, hills, ridges

*Landform position (two-dimensional):* Backslope

*Landform position (three-dimensional):* Side slope, tread

*Down-slope shape:* Convex

*Across-slope shape:* Convex

*Parent material:* Sandstone

##### Interpretive groups

*Land capability classification (irrigated):* None specified

*Land capability classification (nonirrigated):* 8s

*Hydric soil rating:* No

#### Description of Orthents

##### Setting

*Landform:* Terraces, ridges, hills

*Landform position (two-dimensional):* Backslope

*Landform position (three-dimensional):* Crest, side slope, tread

*Down-slope shape:* Linear, convex

*Across-slope shape:* Linear, convex

*Parent material:* Sandstone

##### Typical profile

*H1 - 0 to 60 inches:* variable

##### Properties and qualities

*Slope:* 5 to 50 percent

*Depth to restrictive feature:* More than 80 inches

*Drainage class:* Well drained  
*Depth to water table:* More than 80 inches  
*Frequency of flooding:* None  
*Frequency of ponding:* None  
*Available water capacity:* Very low (about 0.0 inches)

**Interpretive groups**

*Land capability classification (irrigated):* None specified  
*Land capability classification (nonirrigated):* 8e  
*Hydric soil rating:* No

**Minor Components**

**Unnamed**

*Percent of map unit:* 10 percent  
*Hydric soil rating:* No

Hi Elizabeth,

I have attached the Unit Appraisal record (UAR) that you most likely already have. But, here it is again, just in case. I snipped a portion and highlighted the areas that you should look at. I also snipped a portion of a Pictometry map. Your subject parcel is outlined in blue. I also included a snippet of our master screen. We have the Use Code as 59 – Nurseries and Greenhouses. From what I can see the greenhouses were torn down a long time ago as well as the boiler house and shed. Hope this helps. It's all the info I have.

Fun fact – back in the early 70's, my grandmother lived in the apartments on Castle and Hillside. Across the street her friend, Alice, lived in the old house (006-254-230). And behind her house, just north of your subject parcel was a field of tomato plants. My mom and I used to go over there to pick tomatoes. I think Alice owned that land too, but then again I was only about 5 or 6.

Thanks, Christine

---

Hello Christine,

I spoke with Evan already, and he referred me to you for some building information for a residence located at 141 3<sup>rd</sup> Avenue, APN 006-254-030. I was hoping to find out the building square footage and year of construction for this residence for a report that I am working on. From what I can tell, the resident was developed sometime prior to 1926, and the building may be 3,900 SF, according to a building record I was sent from 2010. Please let me know what you may find for this property.

And please reach out if you need any other information.

Thank you,  
Elizabeth Hoggatt  
Environmental Project Manager

# **APPENDIX H**

## **QUALIFICATIONS**

## **Elizabeth Hoggatt – Project Manager**

---

BS – Earth Science, California Polytechnic State University, San Luis Obispo

Ms. Hoggatt provides three years of experience in project management to ensure ASTM compliance and satisfaction of client requirements for Phase I Environmental Assessments, Environmental Transaction Screens, Regulatory Database Review, and Historical Records Review. She has completed assessments on a variety of sites including industrial manufacturing facilities, gas stations, dry cleaning facilities, auto repair shops, multi-tenant industrial complexes, light industrial warehouses, commercial shopping centers and properties, and multi-family residential properties throughout the West Coast, and various other states.

Project experience for Ms. Hoggatt includes:

- Phase I Environmental Site Assessments (PHI ESA)
- Environmental Transaction Screens (ETS)
- Regulatory Database Review
- Historical Records Review

In addition, prior to joining the environmental consulting industry, Ms. Hoggatt spent four years studying a diverse range of environmental disciplines including: physical and cultural geography, soil science, geology, Geographic Information Systems (GIS), and sustainable development and environmental planning.

## **Michael J. DiFabio – National Client Manager**

---

Master's of Applied Science in Environmental Policy, University of Denver - March 2012

Graduate Certificate, Energy and Sustainability, University of Denver - December 2010

LEED Green Associate Credential, USGBC - January 2010

BA Environmental Science, SUNY Plattsburgh - August 2000

Mr. DiFabio has been working in the environmental due diligence industry since 2001. He has serviced a wide variety of clients including banks, real estate brokers, insurance companies, transportation agencies, and various federal, state, and city agencies. He has an in-depth knowledge of regulatory guidelines and compliance requirements with USEPA, ASTM, State, and local governments. Additionally, he has completed/reviewed thousands of Phase I ESAs, numerous Phase II Subsurface Investigations, as well as oversight services for leaking underground storage tank removals.

Key project experience for Mr. DiFabio include but are not limited to the following:

- **Redevelopment of Concord & Grossinger's Resorts - Catskills, NY**  
Assessed the environmental conditions at both sites for redevelopment; consisted of over 1,000-acres combined, numerous LUSTs, abandoned landfills, former drycleaners, and significant IAQ issues.
- **Environmental Corridor Project-Harlem - New York, NY**  
Assessed the visual, historical, and regulatory environmental impacts for the redevelopment of a five-mile corridor project in Harlem, NY.
- **East Side Access Project Environmental Work – New York, NY**  
Environmental Site Investigations throughout several rail yards in Queens and Manhattan as a part of the project's development. Investigations included geophysical surveys, soil and groundwater sampling and analysis, and asbestos and lead based paint surveys.
- **S. Platte River Corridor Brownfields Redevelopment Project - Denver, CO**  
The City and County of Denver was awarded a grant in 2011 through the USEPA to select catalytic sites along the South Platte River for brownfields redevelopment. Assisted with the selection of those sites, and selection of environmental urban planning firms to perform the work.

Subject: Phase II Subsurface Investigation  
141 3<sup>rd</sup> Avenue  
Daly City, California

Dear John:

Enclosed is the Phase II Subsurface Investigation Report documenting the soil sampling that was conducted by Innovative and Creative Environmental Solutions at 141 3<sup>rd</sup> Avenue located in Daly City, California.

If you have any questions or comments concerning this report, please call Derek Wong or me.

Sincerely,

Peng Leong  
Principal Engineer

ICES 9221

**PHASE II SUBSURFACE INVESTIGATION  
141 3<sup>RD</sup> AVENUE  
DALY CITY, CALIFORNIA**

**1.0 INTRODUCTION**

This report presents the findings of the Phase II Subsurface Investigation that was conducted by Innovative and Creative Environmental Solutions (ICES) at 141 3<sup>rd</sup> Avenue located in Daly City, California. ("the Site"; Figure 1).

The purpose of the investigation was to assess the potential presence of chlorinated pesticides in the surficial soil associated with the former nursery at the Site. The investigation was limited to collecting soil samples and analyzing the samples for organochlorine pesticides, arsenic, lead, and mercury.

**2.0 SITE DESCRIPTION**

The Site is located on the east side of 3<sup>rd</sup> Avenue and is within the legal jurisdiction of Daly City and the County of San Mateo. The trapezoidal Site consists of two parcels covering an area of approximately 0.71 acres. A vacant residential building is located at the northwest corner of the Site. The remaining areas of the Site are vacant and unpaved.

**3.0 BACKGROUND**

AEI Consultants (AEI) conducted a Phase I Environmental Site Assessment (ESA) in October 2020. According to AEI, the existing residential structure located at the northwest corner of the Site was built in 1908. Numerous greenhouses had been developed at the Site by 1926. The greenhouses were removed from the Site by 1980 and the area remained as vacant land. The residential structure was reportedly occupied until 2019 and is currently vacant. Based on the findings of the Phase I ESA, AEI recommended a subsurface investigation to assess the potential impacts from the former onsite greenhouses.

#### 4.0 INVESTIGATION ACTIVITIES

ICES collected soil samples on November 1, 2020. A total of five soil samples were collected from four test pit locations. The approximate test pit locations are shown in Figure 2.

Soil samples TP-1A, TP-2A, TP-3A, and TP-4A were collected within the upper portion of the native soil at a depth of approximately 6 to 9 inches below the existing ground surface (bgs). Soil sample TP-4B was collected at a depth of approximately 12 to 18 inches bgs. Soil samples were collected by scraping the test pit sidewalls of each sample location at the selected depth directly into 8-ounce glass jars.

After being sealed and labeled, the soil samples were immediately placed in a chilled cooler containing crushed ice for transportation to the laboratory. Proper documentation and field chain-of-custody procedures were implemented.

All equipment used during this investigation which might have come into contact with contaminated materials was thoroughly decontaminated before and after each use. This was accomplished by washing with Alconox (a laboratory-grade detergent) and rinsing with distilled water.

#### 5.0 LABORATORY ANALYSIS

The soil samples collected were sent to McCampbell Analytical, Inc. (McCampbell) of Pacheco, California, a state-certified laboratory, and initially analyzed for:

- ° Organochlorine pesticides using EPA Method 8081A; and
- ° Arsenic, lead, and mercury using EPA Method 6020.

Based on the initial laboratory analytical results, the following supplementary analysis was performed by McCampbell:

- ° Sample TP-2A was analyzed for soluble lead using EPA Method SW6010B.

The soil samples were analyzed on a normal turnaround basis.

#### 6.0 INVESTIGATION RESULTS

Laboratory analytical results are summarized in Table 1 and

presented below. Laboratory certificates are included in Appendix A.

Laboratory analytical results indicated that the soil samples contained organochlorine pesticide concentrations that were below the Regional Water Quality Control Board's (Water Board) Direct Exposure Human Health Screening Levels (DE HHSL) for residential land use. Arsenic concentrations ranging 2.9 mg/kg to 4.6 mg/kg exceeded the residential DE HHSL of 0.067 mg/kg but were below the upper bound of the background range of 11 mg/kg. The Water Board considers background levels to be acceptable for contaminants where the DE HHSL are less than typical background levels. The lead concentrations contained in the samples were generally within typical background levels and also below their respective residential DE HHSL, with the exception of sample TP-2A. The lead concentration contained in sample TP-2A of 92 mg/kg was slightly above the residential DE HHSL of 80 mg/kg. Concentrations of mercury detected in the samples were below their respective residential DE HHSL and within typical background levels.

Analysis of TP-2A for soluble lead reported a concentration of 4.3 mg/L which was below the Soluble Threshold Limit Concentration (STLC) of 5.0 mg/L. Soil containing a soluble lead concentration which is below the STLC is characterized as a non-hazardous waste.

## **7.0 DISCUSSION**

Based on the findings of this investigation, it appears that the surficial sediments within the northeastern portion of the Site contain concentrations of lead that were slightly above the acceptable residential land use criteria.

## **8.0 EXCLUSIONS**

ICES assumes no responsibility or liability for the reliance hereon or use hereof of information contained in this report by anyone other than the party to whom it is addressed.

The evaluations and recommendations presented in this report are based on the limited site investigation results available at this time and could be revised if new information necessitating further review of the Site becomes available.

TABLE 1  
SOIL SAMPLE RESULTS  
141 3rd Avenue  
Daly City, California

| Test Pit Location                | Sample ID | Depth (inches) | Lindane (mg/kg) | Chlordane (Total) (mg/kg) | DDD (mg/kg) | DDE (mg/kg) | DDT (mg/kg) | Dieldrin (mg/kg) | Endosulfan II (mg/kg) | Heptachlor Epoxide (mg/kg) | Other Organochlorine Pesticides (mg/kg) | Arsenic (mg/kg) | Lead (mg/kg) | Lead - STLC (mg/L) | Mercury (mg/kg) |

**NOTES:** - STLC and TCLP extractions require 2 days to complete; therefore, all TATs begin after the extraction is completed (i.e., One-day TAT yields results in 3 days from sample submission).

- MAI assumes that all material present in the provided sampling container is considered part of the sample - MAI does not exclude any material from the sample prior to sample preparation unless requested in writing by the client.

"When Quality Counts"

## Analytical Report

**WorkOrder:** 2011024 A

**Report Created for:** ICES

P.O. Box 99288  
Emeryville, CA 94662

**Project Contact:** Peng Leong

**Project P.O.:**

**Project:** ICES 9221

**Project Received:** 11/02/2020

Analytical Report reviewed & approved for release on 11/16/2020 by:

Yen Cao  
Project Manager

*The report shall not be reproduced except in full, without the written approval of the laboratory. The analytical results relate only to the items tested. Results reported conform to the most current NELAP standards, where applicable, unless otherwise stated in a case narrative.*

## Glossary of Terms & Qualifier Definitions

**Client:** ICES  
**Project:** ICES 9221  
**WorkOrder:** 2011024 A

### Glossary Abbreviation

|              |                                                                                          |
|--------------|------------------------------------------------------------------------------------------|
| %D           | Serial Dilution Percent Difference                                                       |
| 95% Interval | 95% Confident Interval                                                                   |
| CPT          | Consumer Product Testing not NELAP Accredited                                            |
| DF           | Dilution Factor                                                                          |
| DI WET       | (DISTLC) Waste Extraction Test using DI water                                            |
| DISS         | Dissolved (direct analysis of 0.45 µm filtered and acidified water sample)               |
| DLT          | Dilution Test (Serial Dilution)                                                          |
| DUP          | Duplicate                                                                                |
| EDL          | Estimated Detection Limit                                                                |
| ERS          | External reference sample. Second source calibration verification.                       |
| ITEF         | International Toxicity Equivalence Factor                                                |
| LCS          | Laboratory Control Sample                                                                |
| LQL          | Lowest Quantitation Level                                                                |
| MB           | Method Blank                                                                             |
| MB % Rec     | % Recovery of Surrogate in Method Blank, if applicable                                   |
| MDL          | Method Detection Limit                                                                   |
| ML           | Minimum Level of Quantitation                                                            |
| MS           | Matrix Spike                                                                             |
| MSD          | Matrix Spike Duplicate                                                                   |
| N/A          | Not Applicable                                                                           |
| ND           | Not detected at or above the indicated MDL or RL                                         |
| NR           | Data Not Reported due to matrix interference or insufficient sample amount.              |
| PDS          | Post Digestion Spike                                                                     |
| PDSD         | Post Digestion Spike Duplicate                                                           |
| PF           | Prep Factor                                                                              |
| RD           | Relative Difference                                                                      |
| RL           | Reporting Limit (The RL is the lowest calibration standard in a multipoint calibration.) |
| RPD          | Relative Percent Deviation                                                               |
| RRT          | Relative Retention Time                                                                  |
| SPK Val      | Spike Value                                                                              |
| SPKRef Val   | Spike Reference Value                                                                    |
| SPLP         | Synthetic Precipitation Leachate Procedure                                               |
| ST           | Sorbent Tube                                                                             |
| TCLP         | Toxicity Characteristic Leachate Procedure                                               |
| TEQ          | Toxicity Equivalents                                                                     |
| TZA          | TimeZone Net Adjustment for sample collected outside of MAI's UTC.                       |
| WET (STLC)   | Waste Extraction Test (Soluble Threshold Limit Concentration)                            |

**NOTES:** - STLC and TCLP extractions require 2 days to complete; therefore, all TATs begin after the extraction is completed (i.e., One-day TAT yields results in 3 days from sample submission).

- MAI assumes that all material present in the provided sampling container is considered part of the sample - MAI does not exclude any material from the sample prior to sample preparation unless requested in writing by the client.

MAI clients MUST disclose any dangerous chemicals known to be present in their submitted samples in concentrations that may cause immediate harm or serious future health endangerment as a result of brief, gloved, open air, sample handling by MAI staff. Non-disclosure incurs an immediate \$250 surcharge and the client is subject to full legal liability for harm suffered. Thank you for your understanding and for allowing us to work safely.

\* If metals are requested for water samples and the water type (Matrix) is not specified on the chain of custody, MAI will default to metals by E200.8.

Please provide an adequate volume of sample. If the volume is not sufficient for a MS/MSD a LCS/LCSD will be prepared in its place and noted in the report.

**Re: Vehicle Miles Travelled (VMT) Analysis for New Townhomes at 141 3<sup>rd</sup> Avenue in Daly City, California**

Dear Mr. Tutino:

Hexagon Transportation Consultants, Inc. has prepared this transportation study for the new townhomes proposed at 141 3<sup>rd</sup> Avenue in Daly City, California. The project would demolish the existing single-family home and construct 14 new townhomes.

In accordance with Senate Bill (SB) 743, an analysis of the project's potential impacts on vehicle miles traveled (VMT) was conducted as part of the environmental analysis for the project. Because the City of Daly City has not yet adopted any analysis methodology or significance thresholds related to VMT, the VMT thresholds for this project are based on the Governor's Office of Planning and Research (OPR)'s recommendations.

Per OPR guidelines, projects that generate or attract fewer than 110 trips per day may be assumed to cause a less than significant transportation impact. Using the Institute of Transportation Engineers' (ITE) Trip Generation Manual, 11<sup>th</sup> Edition (2021) daily trip rates for "Single Family Attached Housing" (Land Use 215) located in a general Urban/Suburban area, the project is estimated to generate 101 daily trips. The existing "Single-Family Detached Housing" (Land Use 210) is estimated to generate 9 daily trips. Therefore, after crediting the existing trip generation, the project is estimated to generate 92 net new daily trips.

**Table 1: Trip Generation Estimates**

| Land Use                                                                                                       | Size              | Daily |      |
|----------------------------------------------------------------------------------------------------------------|-------------------|-------|------|
|                                                                                                                |                   | Rate  | Trip |
| Proposed Land Uses <sup>1</sup>                                                                                |                   |       |      |
| Single Family Attached Housing                                                                                 | 14 Dwelling Units | 7.200 | 101  |
| Existing Land Uses <sup>2</sup>                                                                                |                   |       |      |
| Single-Family Detached Housing                                                                                 | 1 Dwelling Units  | 9.430 | 9    |
| Net Project Trips                                                                                              |                   |       | 92   |
| Source: ITE Trip Generation Manual, 11 <sup>th</sup> Edition 2021                                              |                   |       |      |
| Notes:                                                                                                         |                   |       |      |
| 1. Single-Family Attached Housing (Land Use 215), average rates expressed in trips per dwelling unit are used. |                   |       |      |
| 2. Single-Family Detached Housing (Land Use 210), average rates expressed in trips per dwelling unit are used. |                   |       |      |

Furthermore, according to OPR, residential and office projects that locate in areas with low VMT, and that incorporate similar features (i.e., density, mix of uses, transit accessibility), will tend to

exhibit similarly low VMT. The Metropolitan Transportation Commission (MTC) provides data on trip lengths for employment and residential uses within the nine-county Bay Area. According to the MTC ArcGIS VMT tool, the 2040 Plan Bay Area Model forecasted daily VMT for the project transportation analysis zone (TAZ 201) are 9.47, 9.3, and 8.36 miles per resident in years 2020, 2030, and 2040, respectively. The San Francisco Bay Area average daily VMT is 15.0, 14.4, and 13.8 miles per resident in years 2020, 2030, and 2040, respectively.

Since the project is estimated to generate fewer than 110 net new daily vehicle trips, and the average VMT for residents within the TAZ for the proposed project is lower than the regional average, the project would have a less than significant VMT impact.

We appreciate the opportunity to provide this transportation analysis. If you have any questions, please do not hesitate to call.

Sincerely,

HEXAGON TRANSPORTATION CONSULTANTS, INC.

| <b>Air Quality</b>                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                        |                                                                                                                                                                                                                              |                                                |
| <b>Impact AIR-3:</b> The project would not expose sensitive receptors to substantial pollutant concentrations. <b>(Less than Significant Impact with Mitigation Incorporated)</b> | <b>MM AIR-3.1:</b> During any construction period ground disturbance, the applicant shall ensure that the project contractor implements measures to control dust and exhaust. Implementation of the measures recommended by BAAQMD and listed below would reduce the air quality impacts associated with grading and new construction to a less-than-significant level. Additional measures are identified to reduce construction equipment exhaust emissions. The contractor shall implement the following best management practices that are required of all projects: <ul style="list-style-type: none"> <li>• All exposed surfaces (e.g., parking areas, staging areas, soil piles, graded areas, and unpaved access roads) shall be watered two times per day.</li> <li>• All haul trucks transporting soil, sand, or other loose material off-site shall be covered.</li> <li>• All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.</li> </ul> | The project applicant and contractors shall be responsible for implementing the mitigation measures during all phases of construction. | All measures shall be printed on all construction documents, contracts, and project plans and shall be reviewed by the Director of Economic and Community Development prior to the issuance of a grading or building permit. | Director of Economic and Community Development |

| <p>effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the CDFW or USFWS. <b>(Less than Significant Impact with Mitigation Incorporated)</b></p> | <p>breeding season (February 1 to August 31) in order to avoid impacts to nesting birds. Surveys shall be completed by a qualified biologist no more than 14 days before construction begins. During this survey, the biologist or ornithologist shall inspect all trees and other possible nesting habitats in and within 250 feet of the project boundary.</p> <p>If an active nest is found in an area that would be disturbed by construction, the ornithologist shall designate an adequate buffer zone (~250 feet) to be established around the nest, in consultation with the California Department of Fish and Wildlife (CDFW). The buffer would ensure that nests shall not be disturbed until the young have fledged (left the nest), the nest is vacated, and there is no evidence of second nesting attempts.</p> <p>The applicant shall submit a report indicating the results of the survey and any designated buffer zones to the satisfaction of the Director of Community Development, prior to the removal of trees and issuance of a grading permit or demolition permit.</p> | <p>responsible for implementing the mitigation measures prior to project construction.</p> | <p>documents, contracts, and project plans and shall be reviewed by the Director of Economic and Community Development prior to the issuance of a grading permit.</p> <p>A final report of nesting birds, including any protection measures, shall be submitted to the Director of Economic and Community Development prior to the issuance of a grading permit or demolition permit.</p> | <p>Community Development</p> |

| <b>Impact CUL-2:</b> The project would not cause a substantial adverse change in the significance of an archaeological resource pursuant to CEQA Guidelines Section 15064.5. <b>(Less than Significant Impact with Mitigation Incorporated)</b> | <b>MM CUL-2.1:</b> If evidence of an archaeological site or other suspected cultural resource as defined by CEQA Guideline Section 15064.5, including darkened soil representing past human activity (“midden”), that could conceal material remains (e.g., worked stone, worked bone, fired clay vessels, faunal bone, hearths, storage pits, or burials) is discovered during construction related earth-moving activities, all ground-disturbing activity within 100 feet of the resources shall be halted and the City’s Planning Manager shall be notified. The project sponsor shall hire a qualified archaeologist to conduct a field investigation. The City’s Planning Manager shall consult with the archaeologist to assess the significance of the find. Impacts to any significant resources shall be mitigated to a less-than-significant level through data recovery or other methods determined adequate by a qualified archaeologist and that are consistent with the Secretary of the Interior’s Standards for Archaeological documentation. Any identified cultural resources shall be recorded on the appropriate DPR 523 (A-J) form and filed with the NWIC. | The project applicant and contractors shall be responsible for implementing the mitigation measures during all phases of construction. | All measures shall be printed on all construction documents, contracts, and project plans and shall be reviewed by the Director of Economic and Community Development prior to the issuance of a grading or building permit. | Director of Economic and Community Development |

## MITIGATION MONITORING AND REPORTING PROGRAM
